HOLIDAY DIALYSIS

HOLIDAY DIALYSIS

The Dialysezentrum Oberengadin offers holiday guests the option of state-of-the-art dialysis therapy in an attractive environment.

For a dialysis patient, holidays are often a complicated affair that can still involve uncertainties despite a lot of planning and organising. Finding a holiday resort that combines fun, relaxation, and reliable dialysis therapy isn't always easy.

Near St. Moritz, the town of Samedan in the Upper Engadine offers a solution to precisely these challenges by providing holiday dialysis at the Dialysezentrum Oberengadin.

DIALYSIS THERAPY AND HOLIDAY IN SAMEDAN

A variety of options are available in the immediate vicinity of Samedan for winding down and tuning out of everyday life.

In winter, mind and body rejoice in the hiking trails as well as in the skiing, cross-country skiing, and snowboarding on the slopes of the Upper Engadine and St. Moritz . Once the weather starts to get warmer, you can enjoy the beautiful spring in our mountains, and of course summer, with its pleasant climate and respite from the heat of the city.

For many dialysis patients, relaxation and serenity are only possible when they also know that they are safe in the hands of medical experts. The competent specialists at Samedan will personally advise and support you according to your individual medical history.

DIALYSIS MACHINES / TYPES OF TREATMENT

The dialysis centre offers six dialysis stations with Fresenius 5008 S units, each equipped with a single needle and online Haemodiafiltration (OL-HDF) option.

- The water treatment system for dialysis is secured by the Fresenius AquaB system.
- For the dialysis, steam-sterilised Helixone® membranes made by Fresenius (CorDiax High-Flux-Filter) are used exclusively.
- The dialysis of the Spital Oberengadin uses only disposable material made by Fresenius.

FACILITIES / SERVICE

- Wi-Fi
- Magazines
- Light snack
- Barrier-free access
- Free parking space

MEDICAL

The dialysis centre is located on the 4th floor in the Upper Engadin Hospital.

Additional services, such as lab tests, X-rays, ultrasound, ECG, and other tests are available (separate billing).

LANGUAGES

German, English, Italian

MEDICAL DOCUMENTS

Please bring the following documents to your treatment appointment:

- Registration form
- Most recent dialysis protocol
- Diagnostics list
- Details of current medication and dosages
- Actual Results of blood tests and serology

BILLING

We accept the European Insurance Card.

The applicable schedule of fees of the Spital Oberengadin applies. For further information, please refer to the website: www.spital-oberengadin.ch

Dialysis (excluding erythropoietin (EPO), medication, additional laboratory services per dialysis treatment).

Private insurance coverage **CHF 600.– / with catheter care CHF 650.–**

Emergency surcharge

Between 7 pm and 7 am

Surcharge for children and adolescents

for comprehensive hemodialysis care (up to the age of 16).

A deposit will be required for **additional laboratory services** (Viollier AG), the actual costs will be invoiced, and the remaining balance will be refunded.

Dialysis patients from other countries (not EU, not CH) must pay the aforementioned dialysis fee before the treatment starts or on the day of admission at the latest. Unfortunately we cannot arrange direct billing through foreign health insurances.

We accept payments in cash or by credit card (American Express, Visa, MasterCard).

Any services during your stay, that are not related to dialysis, as well as additional lab tests and additional medication that are not included in the package, must be settled before you leave the hospital. Please contact the billing office at Spital Oberengadin.

We request you make the final settlement of the bill on the last day of your treatment. If you have any questions, please contact the billing office of Spital Oberengadin.

T +41 81 851 87 91
